CURRICULUM VITAE

PROFESSIONAL SUMMARY

Integration consultant specializing in SAP Cloud Platform Integration (CPI) and SAP Integration Suite. Comfortable designing iFlows, working with REST, SOAP and OData adapters, and documenting interfaces for SAP and third-party landscapes. Alongside client integration work, I build and publish personal software projects covering Web3 wallets, habit systems, and AI-assisted apps.

TECHNICAL SKILLS

Integration	SAP CPI, SAP Integration Suite, iFlows, REST, SOAP, OData, XML, JSON
Engineering	TypeScript, JavaScript, Python, HTML, CSS
Collaboration	GitHub, technical documentation, interface design notes

INDEPENDENT PROJECTS

VibeChain AI — github.com/kgr-tech/VibeChain-AI

Turns Eternl (Cardano light wallet) and MetaMask into a Web3 finance DApp: simple payments now, with a path toward enterprise-grade on-chain workflows.

StreakHabitEarn — github.com/kgr-tech/StreakHabitEarn

Automating daily habits at scale: a real-time streak tracking system built with Kiro AI.

LocalCultureGuide — github.com/kgr-tech/LocalCultureGuide

TypeScript web app for local culture discovery. Source and GitHub Pages deployment.

SpyFlightShoot — github.com/kgr-tech/SpyFlightShoot

Interactive JavaScript game prototype.

Kiro Fitfin AI — github.com/kgr-tech/Kiro-Fitfin-AI

TypeScript experiment combining fitness and finance assistance with AI.

100 Days of Code — github.com/kgr-tech/100-Days-of-Code---The-Complete-Python-Pro-Bootcamp

Python practice work from the Complete Python Pro Bootcamp.

PROFESSIONAL EXPERIENCE

Detailed client engagements, employer history, and SAP CPI case studies are maintained on LinkedIn. Project documents and screenshots can be attached to this CV or linked from the portfolio Projects page.
